Dreams occur when we pass from deep sleep to light sleep. They are stories that we tell ourselves, conceivably, in order not to wake up completely, and we are usually so involved that it takes a considerable stimulus to

The first of these is the fact that the
 government has been unable to
 maintain a consistent policy
 towards the press. In the
 past, it has been known for
 the government to clamp
 down on the press, but in
 recent years it has been
 more lenient. This has
 led to a situation where

 government in power.

 it
 undermines
 the
 press's
 ability
 to
 act

 a
 watchdog
 over
